

Life Changes Your Skin... Fraxel Treatment Restores It!

Imagine going back to a time before you worshipped the sun, before hormones made your skin break out, before your little one was even a glimmer on the horizon. Imagine waking up and not only feeling ten years younger, but also looking it!

Fraxel treatment is a safe, noninvasive way to treat brown spots and fine lines, revealing healthy, luminous skin, with minimal downtime. It is an easy way to restore your skin to its original glow.

We, at Wells Plastic Surgery & Skin Care, are excited to be Lexington's premier fraxel laser center.

For additional information on how you can benefit from using Fraxel Treatments today, contact our office at 859.255.6649 or email rbates@wellsplasticsurgery.com

Mommy Special

Having children is a wonderful experience that is sometimes left with an undesirable body image.

Abdominoplasty and breast augmentation are so frequently requested by women following pregnancies that the combination of procedures is often referred to as a "mommy makeover". The mommy makeover is created by tightening and contouring the abdominal muscles, as well as repositioning the breasts. For some this may require augmentation while others may wish to undergo a breast reduction.

Being realistic about the outcome is an important aspect to selecting to undergo the mommy makeover process, while returning to their youthful physical appearance is typically the goal. There are certain precautions the patient will be advised of during their initial consultation, but dreams of achieving a great look through a mommy makeover can also become a reality.

Now Offering New Services

We are excited to be offering three new facial treatments to our service menu.

Skin Care 101 For Teens

Skin Care 101 is the perfect introduction to skin care. It is designed to promote healthy skin in teenagers. This customized consultation allows our staff to educate teens on how to maintain great skin with a proper home care regimen, diet and exercise. This tutorial also includes an introduction to brow grooming and an age appropriate makeup application.

Gentlemen's Facial

Gentlemen's skin is often deprived of special attention. We personalize each facial to the distinctive needs of your skin. This facial includes a scalp massage, deep cleansing, facial massage, hydrating mask, extractions and ends with a sunscreen. An experience truly designed to restore the skin of the everyday man.

Luxury Rejuvenation Facial

The Luxury Rejuvenation Facial is the ultimate in skin care experience. Your treatment will include a hand paraffin dip, scalp massage, deep cleansing, exfoliating mask, extractions, massage to face, arms and décolleté. A calming mask and a moisturizer ends your experience that leaves your skin feeling fresh and rejuvenated.

The Must Have Accessory For This Fall...

Lip enhancement and raised mouth corners with Restylane

Full lips have been associated with beauty since the beginning of time. Experts say it's because the lips and mouth are the overall facial focal point. Fillers containing hyaluronic acid like Restylane and Juvederm are used to make lips plump as well as making those fine lines around the mouth disappear. Imagine having the beautiful full lips you've always dreamed of!!

Iredale Lips... Irresistibly Delicious!

Sugar&Butter named for the organic brown sugar in the new lip exfoliator and the shea butter in our new lip plumper. Exfoliating lips was never like this- a tingling pleasure that leaves the lips feeling smooth and refreshed. Then lick your lips and taste the delicious nutty flavor of the sugar crystals.

And that's not all, flick the tube and caress your lips with our new plumper. Based on special peptides that have been shown to increase hydration and stimulate collagen, it also works with ginger and mint to create an instant plumping that fills fine lines and helps to eliminate feathering. Your lips have never felt like this before.

The subtle pink can be worn alone or under or over an additional lip color. It looks great over a neutral pencil like Terra-Cotta.

New To The Team

Robin Bates, Practice Administrator

Robin Bates, Practice Administrator, joined our team in June. She has a strong background in Plastic Surgery and brings fresh ideas to the practice. She is a Lexington native and is a mother of three. Robin loves working with people and helping them through their process at Wells Plastic Surgery as the surgery coordinator.

Allison Kennedy, Clinical Coordinator

Allison Kennedy, Clinical Coordinator, is our newest team member. She is a licensed aesthetician and has trained in Nashville and Kentucky for the past 4 years. Allison works closely with Dr. Wells and his patients to make sure they receive only the best care. She is an active member of Southland Christian Church.

Anne Haydon, Skin Care Assistant

Anne came to us in July. She received her Business Management and Marketing degree from Bluegrass Community and Technical College and is currently working on her degree in Cosmetology. Anne is actively planning her wedding for the summer of 2008.

SERVICE EXTRAORDINAIRE

At Wells Skin Care, we strive to meet the service needs of all our clients. For your convenience we offer extended hours, including two Saturdays a month and evenings hours by appointment along with product shipping. In order to better serve our clients and avoid service charges, a 24 hour cancellation/rescheduling is required in advance. Thank you as we continue our goal of extraordinary service.
