**YOUR CELL PHONE ISN'T ALL  
THAT NEEDS RECHARGING**  
Take time for you. Rejuvenate your skin.

Fraxel restore™ is a non-invasive treatment to reverse the signs of aging, wrinkles around the eyes, sun spots and acne scars. It induces collagen production helping your skin return to its original beautiful glow. You'll get remarkable results with minimal downtime.

Call today for your complimentary consultation.

## Breast Augmentation

Spring will be here soon and we are answering a lot of calls about breast augmentation. When people start to think about warm weather and vacations, they also think about looking good and feeling good about themselves in bathing suits and more revealing clothing. Last year nearly 400,000 women had breast augmentation. Breast augmentation is one of the most popular procedures in plastic surgery.

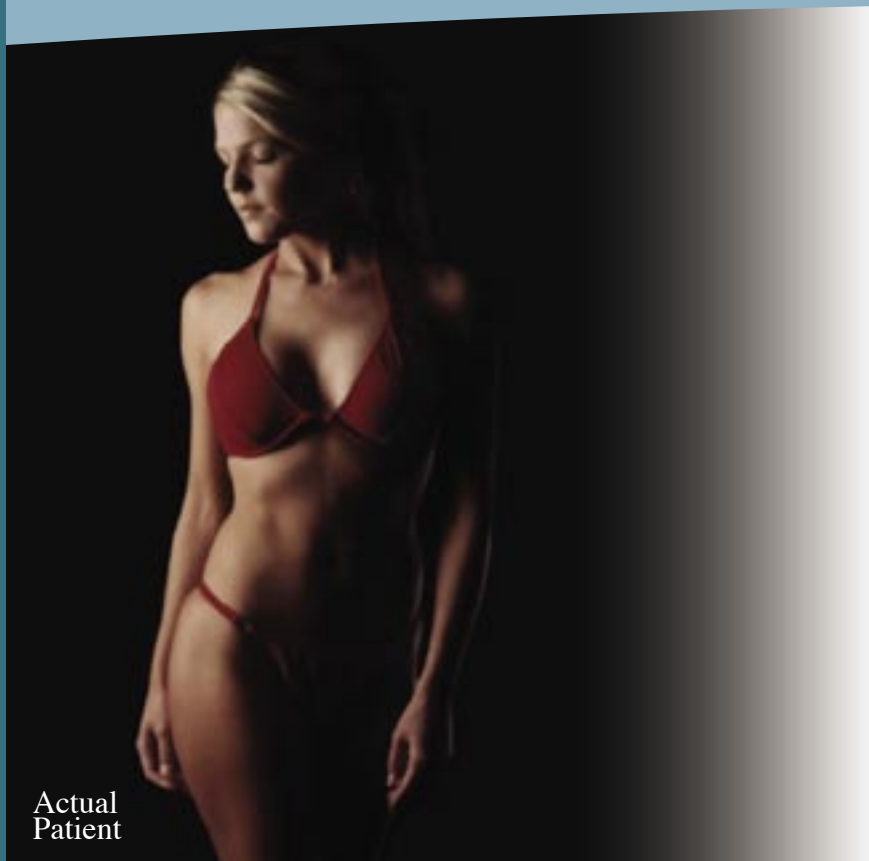

Women now have the choice of saline or gel implants. Breast augmentation is a short surgical procedure, lasting about an hour and a half. The patient goes home after the surgery and is normally seen in our office the next day. While initially there is some discomfort, recovery is rapid, and most patients are ready to go back to work in a week. After three weeks most patients look great and are ready to fully enjoy their new figure.

## Throw your razors away...

**Imagine never shaving your legs, bikini lines or underarms again!** The Lumenis Lightsheer laser is the most potent, effective technology available for laser hair reduction.

Men especially enjoy the benefits of hair removal during summer months because they feel cooler and look better! It also cures the unsightly and painful ingrown hairs of razor burn.

## 100% Satisfaction is our goal!

Last year the Allergan Corporation reported that **our patients were 99% satisfied** with the care received in our practice. As a part of our ongoing commitment to excellence, we will be distributing surveys over the next few months. We value your opinion and will hold responses confidential. We thank you in advance for helping us to better serve you.
